Four years ago, I ran on a platform that stressed safe and healthy schools; choice, challenge and opportunity for all students; responsive leadership; open and effective communication; consistent decision-making processes; and efficient and effective use of resources. I believe that in these past four years, we have accomplished much towards these goals. Thank you for the support that made these accomplishments possible. I respectfully ask for your vote on November 2nd so that I can continue to focus on student achievement, school and student safety, and sound financial management.

Nina on **Student Achievement:**

“Our greatest priority must be to help all students reach their full potential. Whether a child is a high performer or has obstacles to overcome, every student must have the resources, programs and challenging opportunities to help close the gap between potential and achievement.”

Nina on **School Safety:**

“Our schools must be physically safe and provide a supportive and inclusive learning environment for each and every student and staff member.”
